

## ZZR

“The Avon ZZR design brief was immense. “To develop the fastest dry weather, track orientated, road legal, E-marked race tyre in the world”. The ZZR was a perfect opportunity for Avon’s technical department to showcase the company’s cutting edge motorsport design and state-of-the-art tyre manufacturing techniques.

The 13” versions were designed specifically for lightweight cars to optimise both road and on-track performance. The range has been further developed with bigger sizes for saloon cars but keeps that ultimate performance aim.

- Ultimate dry performance
- List 1B and 1C permitted race tyres
- E-marked
- Full racing tread compound
- Designed by the Avon Tyres Motorsport Technical Department.
- Ideal championship control tyre
- Tyre construction utilises materials found in GT, F3, Formula Ford and other world class forms of motorsport.
